

# FALL WILD TURKEY HUNTING INFORMATION AND ON-LINE/TOLL FREE TELEPHONE CHECK IN SYSTEM

Review this information to assure you comply with all of the wild turkey hunting regulations. While hunting, respect the rules of good sportsmanship and the property of others. Have a safe and successful hunt.

## ATTENTION HUNTERS:

### Harvest Reporting on-line at [www.dnr.illinois.gov](http://www.dnr.illinois.gov), or call toll-free 1-866-ILCHECK

Successful hunters must report their harvest by 10 p.m. on the day of harvest online at [www.dnr.illinois.gov](http://www.dnr.illinois.gov), or by telephone (toll-free) at 1-866-452-4325 (1-866-IL-CHECK). The telephone system is fully automated with no operators.

Attention Cell Phone Users: The most common reason hunters are unable to complete their harvest reporting is because of a poor cell phone connection. Once you have properly tagged your turkey, you have until 10 p.m. on the day of harvest to report. Wait until you are out of the woods and receive a clear, strong cell phone connection before placing your call.

When reporting, have a pen/pencil on hand (a permanent marker with an extra-fine tip works best). You will be given a 10-character confirmation number which you must write on the leg tag (as proof you have checked in your harvest). When reporting harvest, hunters will be asked for information to assist biologists in managing Illinois' turkey population. Look over the questions below prior to reporting your harvest.

**TAGGING INSTRUCTIONS:** Immediately upon kill and before the turkey is moved, transported or field dressed, you must invalidate the leg tag by detaching it from the permit, or cutting out the designated notch if it is an adhesive tag. Attach the leg tag using your own fastener through the holes provided (Figure 1) or use the adhesive leg tag (Figure 1a).

The tag must remain attached to the leg of the turkey until it is at the legal residence of the person who legally took or possessed the turkey and it has been reported via Internet or telephone.

## INSTRUCTIONS FOR CHECKING YOUR TURKEY

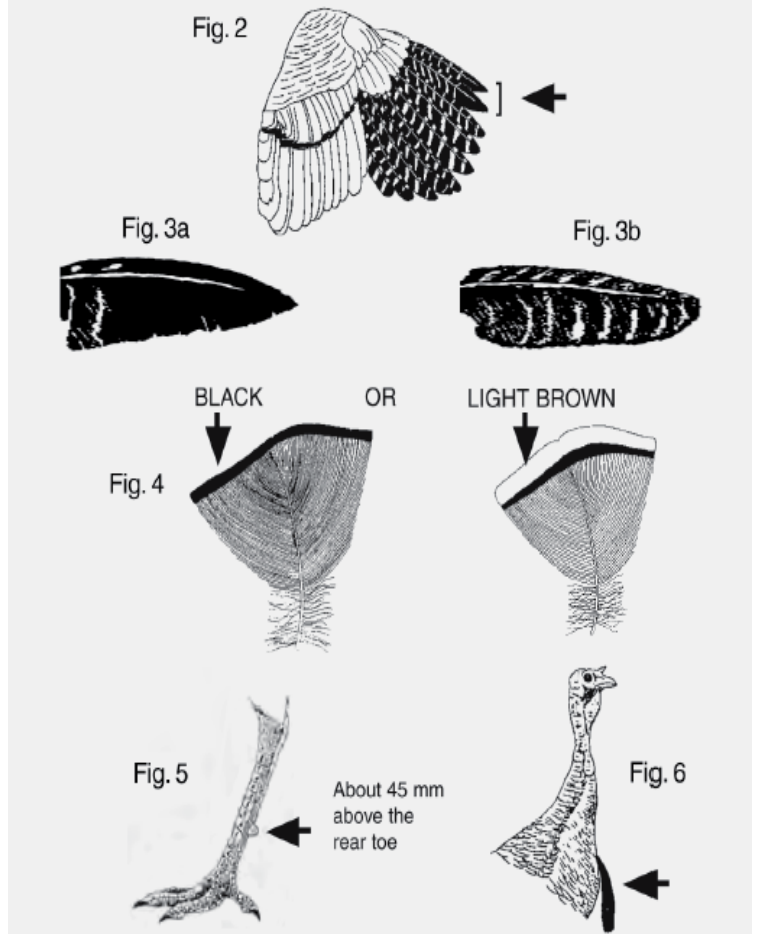

You will be asked a series of questions when you call, including the county or special hunt area of harvest and the questions below. It will be helpful if you fill in the answers on this sheet before making the call. Use the ruler on the back of your permit to make any necessary measurements.

- ◆ What is your permit number?
- ◆ How many days did you hunt using this permit?
- ◆ Look at the outermost two wing flight feathers (Figure 2). Are the tips of the feathers sharply pointed with no white markings on the last 2 inches? If like Figure 3a, answer "yes." If like Figure 3b, answer "no."

- ◆ What is the sex of the turkey? (male or female)
- ◆ Do any of the breast feathers on your turkey have black tips (Yes or No) (Figure 4).

Brown-tipped feathers may have a black band, but not at the very tip of the feather. If all of the breast feathers appear to have light brown tips, brush the feathers forward using your hand and look for new feathers coming in under the outer feathers. Check these as well.

- ◆ To the nearest millimeter, what is the length of the turkey's spur? (Figure 5). Measure from the base of the spur to the tip. If no spur, answer "Zero."
- ◆ To the nearest millimeter, what is the length of the turkey's beard? (Figure 6). Measure from the breast to the tip of the beard. If no beard, answer "Zero."

## FALL TURKEY HUNTING REGULATIONS

Sign your permit before hunting. You must carry the completed permit, along with your Illinois Hunting or Sportsmen's license and Habitat Stamp (unless exempt), while hunting wild turkey.

Permission to hunt on private property must be obtained from the property owner or tenant. Your permit does not authorize trespassing!

Property-only hunting permit holders are permitted to hunt on their owned, leased or rented property ONLY in the counties open for turkey hunting. A hunting rights lease, or other non-agricultural lease, is not valid for a property-only hunting permit.

Permits are not transferable and no refunds will be made.
